

# **PUBLIC NOTICE**

## **DENTAL CLINIC**

**As a preemptive and precautionary measure to prevent the spread of COVID-19, the CDC now recommends that all dental patients call the dental clinic before coming to the clinic to receive care. Effective April 14, 2020, the following processes have been implemented:**

- **All patients having dental pain must call the dental clinic at 601-389-4030 and speak with a dentist before coming to the dental clinic. Patients will continue to be seen starting at 7:30 am until 1 pm, Monday through Friday.**
- **All pediatric dental patients that come to the hospital for emergency dental care must have their temperature checked before coming to the dental clinic.**
- **All dental patients will receive a mask and be escorted from the ER entrance to the dental clinic by a dental staff member.**

**Thank for your help during these challenging times. Your understanding is greatly appreciated. Yakoki!**

**April 13, 2020 @ 7:30am ~ This is subject to change**
