In response to the COVID-19 pandemic, the MBCI COVID-19 Planning & Response Team has recommended, for the safety of MBCI employees, that there should be restrictions to all Tribal government buildings, effectively immediately. Pursuant to the authority given to me in Section VI (7) of Ordinance 50-A, I am restricting access to all tribal government buildings effectively immediately except for (1) employees who are employed in that particular building and have completed the COVID-19 screening form; (2) emergency personnel who have completed the COVID-19 screening form; (3) approved vendors or other persons who have been authorized by the person in charge of the building to enter after completion of the COVID-19 screening form.

At this time, MBCI employees will maintain normal business hours and will remain operational and available by telephonic and electronic means to meet the needs of Tribal members. These measures are necessary to protect the health and safety of tribal employees. Our tribal employees are experiencing some of the same disruptions to their work-life balance that so many others are experiencing during this pandemic. We ask for your patience as we work to continue to serve the needs of the public during this period.

Cyrus Ben, Tribal Chief
